

Executive Summary

Africa-first multilingual artificial intelligence.

OUR
LANGUAGE.
OUR AI.
OUR FUTURE.

01

COMPANY OVERVIEW

NUURUZ AI is an Africa-first artificial intelligence platform created to make advanced technology more accessible, relevant, and useful to African communities and the global diaspora.

03

CORE CAPABILITIES

AI Workspace

Multilingual Support

Research & Knowledge Assistance

NIA Personal Assistant

NUURUZ Language Innovation

02

WHAT WE DO

The platform combines AI conversation, multilingual communication, research, voiced interaction, and personal assistance in a unified digital experience.

04

TARGET USERS

African students, entrepreneurs, startups, SMEs, professionals, and diaspora communities seeking accessible AI tools for education, work, and business.

05

BUSINESS MODEL

Subscription-based model, with future opportunities for broader digital products and services.

06

CURRENT STATUS

- ✓ Stage: Pre-MVP
- ✓ Working website and AI workspace
- ✓ Multilingual product direction
- ✓ Long-term language and ecosystem vision.

07

WHY NUURUZ AI

NUURUZ AI aims to reduce fragmentation by bringing multiple AI capabilities into one platform, while centring African context, language accessibility, and long-term technological independence.

08

VISION

To build African-centred technology that supports education, entrepreneurship, innovation, and economic opportunity, while giving African knowledge, languages, and perspectives a stronger place in the global AI ecosystem.
